

Local Contacts: Kathy Wilson | 416-225-3612 |

Price: Seminar \$ 350 | Early Bird \$325 (till Sept 30)
Convenience (at the door) \$375

Location: University of Toronto, Mississauga—Davis Bldg
3359 Mississauga Road, Mississauga, ON L5L 1L6

Seminar Dates: December 5-6, 2015 - 10am to 4pm
Registrations Begin at 9:00 am. Seminar will begin at 10am each
day | Please make sure you arrive at least 15 min before to get
settled in your seat - earlier if you need to register.

The two day seminar with Tom Tam
will focus on Tong Ren Healing and
how it is used to treat different types
of illnesses including cancer. Tom
will be presenting his theory on
bioelectricity, based on his research
and in his NEW Book Healing with
Bioelectricity --The Bioelectric
Bypass Method. You will learn the
different techniques and
methodology of Tong Ren Therapy.
Including ultrasound theory, case
studies, Tong Ren Therapy application to cases, with
Q&A time for anyone who has questions about personal
issues, cases or conditions.

Weekend Tong Ren Seminar:

History Of Tong Ren Therapy
Tong Ren therapy began with Tom Tam, an innovative
acupuncturist born in China and based in the Boston area.
He originally began as a master in acupuncture, Tai Chi,
and Qi Gong healing. Tom Tam took his knowledge and
experience to develop a system called Tong Ren therapy
back in 1987, which is now used around the world. Tong
Ren can be translated to mean “bronze man,” in reference
to the energetic model used in the therapy.

How Tong Ren Therapy Works

Tong Ren therapy is implemented using a small magnetic
instrument in conjunction with an energetic model of the
human body to identify and “clear” any blockages that
are disrupting the patient’s natural energy flow. This pro-
cess is sometimes compared to tuning a piano, in which a
practitioner makes small adjustments to restore a patient
to normalcy.

Benefits Of Tong Ren Therapy

Proponents of Tong Ren therapy claim that the
techniques involved can enable a body to heal and restore
itself, even with chronic or otherwise untreatable
diseases. Tong Ren claims the adjustments to the body’s
natural energy flow can improve mood and overall
wellbeing, as well as improve on the connections
between the physical, mental, and spiritual realms.
There is no empirical evidence to suggest that Tong Ren
therapy has a measurable physical effect on the body,
though the relaxing nature of the therapy and the focus on
mindfulness can play a key role in reducing stress and
improving mood.

Of Tong Ren Therapy

Tong Ren Therapy

Tong Ren therapy is a form of biofield energy healing,
which is designed to restore health and vitality to patients.
Like many similar systems, Tong Ren is based on the idea
that most health problems are based in an unnatural,
disrupted, or otherwise obscured flow of natural life energy
throughout the body. Tong Ren beliefs assert that these
flows include chi, neural electricity, hormones, or blood,
thus combining the spiritual beliefs of many energy-related
therapies with the science of anatomy and physiology.

The therapy itself is designed to help remove these
blockages and interruptions to help restore a natural flow
of energies. A restored flow, under Tong Ren beliefs, will
help the body restore itself to a natural condition, and even
chronic diseases can be treated and/or managed.

Alternative Therapists can add it to their existing
practices, as a stand alone therapy, or self help method.
